

Harnessing Inner Truth

\$450 early

Presents: Constellation Workshop with Maria Dolenc

Despite our greatest efforts, some of us find ourselves struggling to live our lives fully or to relate well within our families.

We can experience powerful forces which thwart us in our lives, and feel entangled within the dynamics of our family.

Constellation work is a process by which family dynamics are made visible. A participant selects people to represent his or her family members and places them into a position that reflects the participant's experience of his or her family. The dynamics of the family relationship can then be observed. The facilitator works in a highly respectful manner, bringing into awareness any blocks that may be preventing love from flowing within the family system.
